

Associate Utility Maintenance Mechanic
City Utilities

\$16.68 to \$21.29 per hour commensurate with training and experience

The City of Columbia is hiring for an Associate Maintenance Mechanics. This position will perform skilled work involving the maintenance and repair of the City wastewater treatment. Perform a variety of maintenance and repair work on plant equipment, including pumps, fans, gear boxes, shafts, water lines, valves, belts, motors, generators, boilers, bar screens, and the like. Diagnose mechanical defects and take appropriate actions. Operate a variety of standard power tools and equipment in plant maintenance and repair activities on a regular basis. Perform fabrication work, such as welding/designing tools or parts for machines, assembling new equipment, modifying old/new equipment, and repairing worn steel parts. Applicants must have a High school diploma or equivalent with a minimum of one year of relevant maintenance experience required. Must possess and maintain a valid driver's license. **For complete job description and application, go to www.gocomojobs.com by October 03, 2021.**
