July 24, 2008

Dear MWWC Members:

This has been a very busy and productive year for our organization and its members.

Pressure of the financial kind? Sure, like you, the MWWC is feeling it. \$4.00 for a gallon of gasoline is almost a bargain compared to the \$32.00 for a gallon of coffee at the Lodge of Four Seasons.

Even so, MWWC's board and staff have done a serious study of the organization's current financial standings and have found that its bottom line is not much different than it has always been.

Still, considering the slow economic times we are in and higher costs associated with this year's 'experimental' annual meeting at Lake Ozark's Lodge of Four Seasons, MWWC's staff is cutting back on or eliminating spending as much as possible while working very hard not to reduce the quality and amount of operator training that the Conference provides.

In order to minimize costs while maximizing the effectiveness of its training programs, the MWWC needs volunteers to lead classes. Numerous programs have already been put together and are available for presentation. Also, if you are an "A" level operator and have a specific class that you would like to present please contact Lori Cook at 573/761-0376 x302.

In closing, I would like to extend my sincere thanks to the entire office staff, members of the board and to all the loyal members of the Missouri Water and Wastewater Conference, Inc. for their support.

Sincerely,

*Ken Hogan*

Ken Hogan, P.E.  
Chairman
