RE: MWWC Northeast Section Spring Meeting

Ladies and Gentlemen:

The Missouri Water and Wastewater Conference's Northeast Section is planning to hold their spring meeting this year. The meeting will be in Macon on April 11 at the Macon County Park Expo Center. It is located at the Macon County Fairgrounds on Highway 63 at the south edge of Macon. The Expo Center will provide ample room for exhibitors with a maximum of 25 as well as the actual meeting area. A booth exhibition form is enclosed for those of you that are interested in exhibiting, an opportunity to have one-on-one time with operators from the northeast area of Missouri. You do not need to bring a door prize for a drawing at your booth but do so if you would like.

We have had approximately 90 operators at the meeting in the past. Your participation has contributed to the attendance that we have seen over the past several years.

Please return the booth exhibition form to me at the address below so that we can make arrangements for your booth. You may call me at 660.815.0813 to reserve a booth, but we would like to have the form returned along with your payment by March 17th.

You may start your set up as early as 7:00 a.m., or if you prefer, you can set up on Monday, the 10th, from 1:30 p.m. until 3:00 p.m. Please check in at the registration table. Booths are available on a first-come, first-choice basis for those that have preregistered. The meeting starts at 8:00 a.m. Teardown should wait until after the last afternoon break.

If you are not interested in a booth but would like to help out in another way, donations will be accepted gladly and with gratitude. Donations usually are in the \$25 range. These donations are used to offset the cost of refreshments during breaks. If you would like to donate, please make your check payable to "MWWC Northeast Region" and mail to me at the address below.

We look forward to seeing you at the section meeting, which, with your assistance, we hope will be another successful training event for water and wastewater operators in Northeast Missouri. For 2024, we would like to extend an invitation for you to consider making a presentation at the meeting. If you are interested, please let me know.

Thank you for your consideration and assistance,

Ginny Ismay, Secretary/Treasurer, Northeast Section
